Students give back to the community with fall events, drives

The holiday season is a time to think of others and give back. Students in the district have been doing just that throughout the first semester.

- Harrisonville Middle School students raised \$1,500 for the Veterans Community Project during their Coin Challenge leading up to their annual Veterans Day assembly.
- HMS's annual Veteran's Day assembly included recognition of local veterans, as well as school staff who are veterans.
- Harrisonville Elementary School students raised \$761.12 during a coin drive before Thanksgiving Break to support the Bright Futures Blue Barrel collection of winter pajamas.
- McEowen Elementary School fourth graders in Mrs. Jimenez's class wrote thank you letters to veterans to be sent for use during the next Honor Flight's mail call.
- Harrisonville High School Key Club members raked leaves for retired teachers in the community.
- Harrisonville High School Student Council hosted the annual Senior Citizens Thanksgiving Banquet for

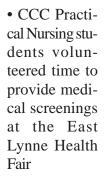

approximately 250 local seniors. The event included a traditional Thanksgiving meal and entertainment by the HHS jazz band, theatre department and Music Makers

- The district food drive in October brought in nearly two box trucks of donations for the Shepherd's Staff Food Pantry.
- HHS Key Club set up a hot chocolate and cookies stand at the Holiday Open House at Artisan's Corner and raised \$250 which they donated to Harvesters.
- Cass Career Center FFA members volunteered at the Log Cabin Festival. They first helped set up tents and supplies throughout the square on Friday. Then, they held a Petting Zoo on Saturday.
- Cass Career Center DECA members volunteered at Shepherd's Staff and Harvesters.
- McEowen Elementary School students brought in coins for their Coins for a Cure drive benefiting St. Jude Children's Hospital. They raised \$1,154.17.
- CCC SkillsUSA hosted a Penny War in early December to help

adopt-a-family for the holidays.
 CCC Practical Nursing Program held a First Aid drive to collect first aid items to go in the Bright Futures monthly food

From top: HHS Drama Club members load food donations for the local food pantry. HMS Student Council members with a check for the funds raised during their coin challenge. HHS Student Council members serving dinner at the Thanksgiving Banquet.

Strategic planning to take place during second semester

As we enter the holiday season, I am overwhelmed with gratitude for the Harrisonville community and school district welcoming my family in. We are truly blessed to live and work in Harrisonville. As a school district, we have so much to be thankful for. We had a strong fall sports and activity season. Our students competed with all that they had and our coaches and directors guided them with humility and confidence. Our parents, community, and fans cheered everyone on to remind evervone that everyday is a great day to be a Wildcat! We are already underway with our winter sports season and we look forward to the success our students will bring.

On all of our campuses, we are opening our arms to welcome our community back into our schools. Our board highly values our community and parents and they know how important they are to the success of

our schools. The pandemic was a difficult time for schools and our community. We took many precautions to take care of our students and loved ones. These precautions did not always support opening our school doors, but we have turned the corner and are working hard to open up. When you come to our schools, you are greeted, welcomed in, and valued as a person. We have had numerous events to showcase our students and their talents and events that have celebrated our community. With our direction from our amazing school board, I know we are in good hands for the future.

I would like to give you an update on our calendar changes that went into effect for the 2023-2024 school year. We purposefully created professional learning days for our staff throughout the school year. These days also created three day weekends for our families. Our staff

have embraced the professional learning days to come together to learn, plan, and collaborate on best instructional practices and curriculum for our students. For a district that wants to do what is best for each and every student, we must take advantage of professional collaboration to ensure high levels of teaching and learning. Thank you for your support in our calendar changes. We look forward to the second semester where we have five more professional learning days.

Finally, as we start our planning for the 2024-2025 school year, we must make sure that our board, administration, staff, students, and community have a roadmap for the future. Our current roadmap or as we call it, strategic plan, is coming to an end. This calls for us to pull everyone back together to collaborate and plan for the next five years of our district's journey. This work will in-

volve representatives from all stakeholder groups in our community. Our work on our next strategic plan will begin in February and go through May. It will be very involved work and the type of work that will ensure our district's success for the future. If you are interested in being a part of our strategic planning process, we will be sending our invites to our stakeholders early next semester. We value your input as we plan for the future.

I hope that you and your family have a great holiday season and thank you for entrusting us with your child/ren.

Josh Chastain, Ed.D. Superintendent

Love, Falke taking on new leadership roles in 2024-25

The Harrisonville School District is pleased to announce two administrative changes for the 2024-25 school year. Dr. Beth Love, principal at McEowen Elementary School, will be the new principal at Harrisonville Early Childhood Center taking over for Becky Campbell who is retiring at the end of the year (see page 4). Dr. Tricia Falke, principal at Harrisonville Elementary School, will be the new principal at McEowen Elementary School.

Dr. Love is in her sixth year as principal at McEowen Elementary School. She came to Harrisonville from the Warsaw School District where she served as principal of both Ruth Mercer and North Elementary Schools for one and a half years and prior to that was princi-

pal at Ruth Mercer Elementary for three years. Before becoming a principal in Warsaw, she served as a teacher for two years, first as a classroom teacher and then as a Title I teacher. She started teaching in 2004 in the Midway School District where she taught for seven years.

Dr. Love earned her Bachelor of Arts in Elementary Education from Graceland University. She has a Master's Degree in Elementary Education Administration from the University of Central Missouri and her Doctor of Education in Education Leadership and Policy Analysis from the University of Missouri.

Dr. Love is married to Dustin and they have two children, Sadie and Maggie.

Dr. Falke has served as the principal at HES since July 2021 and for three years prior to that, she was the assistant principal at the school.

Dr. Falke began her career as a paraprofessional in the

Grandview School District and then worked as focus facilitator in Lee's Summit. Her teaching experience includes 13 years in the Lee's Summit and Liberty school districts.

She has a Bachelor's Degree in Business from Friends University, a Master's Degree in Education, an Educational Specialist in Educational Administration from the University of Central Missouri, and a

Doctorate in Urban Leadership Administration and Special Policies in Education from the University of Missouri-Kansas City.

Dr. Falke is married to Chris and they have three children, Alexandra, Raegan, and Cole.

Both Dr. Love and Dr. Falke will officially transition to their new positions on July 1, 2024.

www.harrisonvilleschools.org

Students earn local, state, national honors during first semester

During the first semester, students in the district have achieved great things in and out of the classroom.

- HHS senior and Cass Career Center FFA member Case Melzer qualified and competed at the National FFA Convention in Indianapolis. He earned a silver rating in the Dairy Handlers Contest. He is only the 2nd individual/team national qualifier from CCC. Case also recently won the District Young Farmers and Young Farm Wives Speech Contest and will compete at State in February. Additionally, he competed as part of the Missouri 4-H Dairy Judging Team at the World Dairy Expo in Wisconsin. Case and his Missouri teammates earned 2nd place overall and qualified for a trip to Europe to judge this summer.
- HHS junior Kayleigh Norris won the Class 4 Cross Country State Championship, winning by 21 seconds, with a time of 18:07 which is a course record. She was also the District and Conference Champion. HHS junior Steven Overbay was a Cross Country State Qualifier.
- Wildcat tennis players Taylor Jennings and Lily Hopson qualified and competed at State.
- The HHS volleyball and tennis teams earned 2nd in district. The tennis team was also conference champion.
- The Royal Regiment marching band brought home first place in their class from the Blue Springs South marching band competition.
 HHS junior softball player Olivia Quick pitched a 5-inning perfect game this fall. She threw 46 pitches and 41 were strikes facing the mini-

mum 15 hitters. The last perfect

game by a Wildcat pitcher was in 2013.

- Two HHS students have received national recognition from the College Board. Junior Audrey Coffey and senior Josie Cable earned the National Rural and Small Town award for outstanding PSAT and/or AP test scores.
- Three HHS students earned AP Scholars Honors which means they earned a 3 or higher on 3 Advanced Placement exams. Those students are Ann O'Reilly, Josie Cable, and Kenneth Barnard.
- Eleven high school students earned a 4 or 5 on an AP exam. They were Kenneth Barnard, US Government & Politics; Ray Carter, Simon Claxton, Audrey Coffey, Lucas DeVenney, & Selah Parris, Modern World History; and Kenneth Barnard, Josie Cable, Chloe Jackson, Alaina Klausen, Danika Knight & Ann O'Reilly, English Language & Composition.
- Five HHS students have also earned ACT Hall of Fame honors for scoring a 30 or higher on the ACT Audrey Coffey, Josie Cable, Kenneth Barnard, Ann O'Reilly, and Kayla Mason.
- The Wildcat soccer team earned a District and Conference Championship. The team was undefeated in conference play.
- HHS graduate George Frees was named the American Star in Agriscience - one of the top 4 awards the National FFA awards
- HHS graduates George Frees, Laine Schmalzried, and Ella Shelton were awarded the American FFA Degree at the National FFA Convention
- HHS senior Lexi George is only

the second volleyball player in school history to a chieve 1,000 career assists. She also broke the record for aces in a season and

been selected for the All-State Choir for the second year and for the 2024 Southwest American Choral Directors Association Regional Honor Choir. This choir includes members from seven states. Kenny will perform in Denver in February. • Four Harrisonville High School students have been selected by the KC Scholars program as scholarship recipients. Seniors Josie Cable, Jaeda Hasam, and Jayden Taylor have been selected as recipients of a Traditional Scholarship worth up to \$50,000. Sophomore Lily Feece has earned the \$1,400 College Sav-

ings Match Scholarship.

Pictured from top: ACT Hall of Fame inductees, Audrey Coffey, Josie Cable, Kenny Barnard, Ann O'Reilly, and Kayla Mason; Case Melzer at the National FFA Convention; Cross Country State Champion Kayleigh Norris.

Curriculum specialists provide support, resources for teachers

As the 2023-24 school year nears the midpoint, two new staff members are working to positively impact teaching and learning in our schools. The Board of Education approved elementary and secondary curriculum specialist positions last spring and Abby Masters-Schlueter and Valarie Ellsworth took on those roles.

"We work in partnership with teachers, administrators, and the Central Office to ensure we have everything we need to effectively teach what the state requires. We help find resources, plan units, and work with teachers on engaging learning and instructional strategies. We support the district in any way we can when it comes to curriculum and oftentimes wear many different hats," said Ellsworth.

During the first few months, the curriculum specialists have provided professional development for teachers and staff on best practices for instruction and engagement within the classroom. They are also working towards mapping out the district

curriculum - creating units of instruction that align with state standards and creating common pacing guides and assessments that best align with the approved curriculum.

Both Masters-Schlueter and Ellsworth are familiar with the district. Masters-Schlueter completed her student teaching at Harrisonville Elementary School

and taught second grade her first two years there before moving out of state. Ellsworth spent the last eight years as a Communication Arts teacher at Harrisonville High School.

"Our days can look very different, so it is always a new adventure. You could find us in a variety of meetings with different groups of educa-

tors. You may see us in a collaboration or data team meeting, a meeting with administrators, or observing in classrooms and giving feedback." said Masters-Schlueter.

"Some days you may only find us in our offices at Central Office talking with curriculum companies, looking over unit plans, researching and planning professional development, or brainstorming ways

to improve different areas of curriculum and instruction within the district."

Masters-Schlueter has 12 years of experience in education. She has a Master's in Curriculum and Instruction and is currently working on her Ed Specialist in K-12 Leadership. Ellsworth has 25 years of experi-

ence. She has a Master's degree in Education English and a second Master's degree in Educational Administration.

"We are helping to find gaps in learning and collaborate on ways to fill these gaps. We are digging deeper into data and helping the data drive what is done in the classroom," said Ellsworth. "We are researching effective practices and helping teachers implement those practices by running clear professional development and being in classrooms for support."

Assistant Superintendent Annie Knox said, "Valarie and Abby have already made a huge, positive impact on the district's work in curriculum and instruction. Their knowledge, experiences and positive outlook have been extremely helpful while doing this work. They are huge assets to the curriculum department and the district and we are very lucky to have them here supporting our teachers and the wonderful work they do with our students every day."

ECC, HMS

In October, the Harrisonville Board of Education accepted letters of retirement from two long-time district administrators. Harrisonville Early Childhood Center Principal Becky Campbell and Harrisonville Middle School Principal Chris Grantham will both be retiring at the end of the 2023-24 year after 32 years in education.

Becky Campbell began her career in El Dorado Springs as a middle school social studies teacher. She taught at Harrisonville Elementary School for a couple of years before going to Belton for seven years at their middle school. She returned to Harrisonville 21 years ago as the principal at ECC.

principals announce retirements

"I have loved being a part of my 'home' district these past years. I graduated from Harrisonville High School, as did my husband and all three of my kids. It provided for a great future for all of us. The same activities and events that I enjoyed as a student here, I got to enjoy as a parent and an educator. It has been so much fun."

Chris Grantham began his career at Odessa High School teaching math and social studies, as well as coaching football and wrestling. He also worked at Belton and O'Hara before coming to Harrisonville High School in 2001 as a social studies teacher and football coach. He was named principal at Harrisonville

Middle School in 2006.

"There were many things that I have loved about working in the district! The teachers for sure, but overall my favorite part was being in a community

that really cares about their schools. To be a part of young people's lives watching them grow and then having their children in school has been one of the most special moments of

my life."

The district will recognize Mrs. Campbell and Mr. Grantham during retirement recognition events in the spring.

Cass Career Center Pavilion Project to provide space for students, community

hollis + miller

SCHOOL STATE

Cass Career Center is planning a new addition which will benefit the entire community.

The CCC Pavilion Project is a plan to build a 60x100-foot covered outdoor classroom/event area on the north side of the school's property. The pavilion is designed to accommodate a diverse range of activities and events. With a seating capacity for more than 300 people, the outdoor space will offer a range of configuration options to suit the various needs of CCC programs and the community - from live instructional events like student organization activities, fundraising events, and even community events like farmers markets, concerts, reunions, and outdoor movie nights. The pavilion will also include an additional storage shed to protect the equipment of various programs and free up space for indoor classroom instruction, helping to further the school's educational mission.

The Cass Career Cen-

ter was awarded a Missouri's Area Career Center Opportunity Grant (MACCO) in November 2022. The grant funds are intended to match local funds in the amount of \$300,000 to support the pavilion project.

The Cass Career Center has launched a fundraising effort to sup-

port the Pavilion Project.

First, the Cass Career Center Brick Program offers an opportunity to leave a lasting mark at the school, while supporting the new project. The Brick Program offers individual supporters, families, local businesses, or organizations the chance to purchase a personalized brick for \$100. The bricks will form the path from the current school to the new pavilion.

To be a part of the Brick Program phase of this project and leave a lasting impression through the purchase of a brick, visit this link - https://ccc.brickprogram.com/.

Additionally, CCC is offering the opportunity to give larger donations to support the Pavilion Project through sponsorship levels. There are five levels of support - \$1000 (Friend); \$2,500 (Supporter), \$5,000 (Partner), \$10,000 (Advocate), and \$20,000+ (Benefactor). Each level provides varying recognition opportunities from ribbon cutting naming rights, permanent signage on the pavilion, and logo on the CCC website.

All sponsorship-level donations can be made to the Harrisonville Public School Foundation which is a 501(c)(3). All contributions are tax deductible. Checks may be mailed to 503 S. Lexington, Harrisonville, MO 64701. Please include CCC Pavilion Project in the memo line.

For questions about the Pavilion Project, please contact CCC Director Anne Hickman, anne.hickman@harrisonvilleschools.org or (816) 380-3253.

Winter 2023/24 13

District facility to serve new purpose

A district facility will be getting a facelift, along with a new purpose, this spring.

The building, located at 402 Eastwood Road, has been used as the district's administrative offices and more recently, the Wildcat Academy. This spring it will be transformed into the Community Outreach Center (COC).

The Community Outreach Cen-

ter will house the district's Parents As Teachers program and Bright Futures Harrisonville's Station 42.

Parents As Teachers is currently housed in an area that long ago outgrew its capacity between the Early Childhood Center and Harrisonville Middle School. PAT will be housed on the main floor of the COC and provide space for storage of PAT resources, office space for the PAT

educators, and room for small group and individual family meetings.

Bright Futures' Station 42 is currently located in a building on the south side of Memorial Stadium. It will move to the ground level and basement area of the new COC. The new location offers better accessibility, more parking, and the ability to house Bright Futures resources in designated areas within the building. The Food 4 Thought Weekend Food program will be located on the ground level with easy pick-up and delivery access. The clothing resource area will be in the main basement area with access though the building's front door. Side rooms in the basement will be used for separation of school supplies, personal hygiene items and storage of "out-

of-season" clothing.

The building's renovation will include a new facade that identifies it as a school facility with school colors and the Wildcat logo (see image).

www.harrisonvilleschools.org

McEowen, FFA celebrate milestone anniversaries

This fall, the district celebrated two major anniversaries. McEowen Elementary School celebrated 50 years and the Cass Career Center FFA celebrated 75 years.

McEowen Elementary hosted a reception on September 28. Former staff members and community guests had the opportunity to tour the school with current student tour guides, reminisce by looking through old yearbooks, and reconnect with colleagues from the past. The special guest at the event was former Superintendent Walt Bruens who served as Superintendent of Schools when McEowen opened in 1973. Current students created items for a time capsule to explain the special programs and activities at McEowen today and took an allschool photo to include in the time capsule.

McEowen Elementary School held a Dedication and Open House on September 9, 1973.

The school cost \$521,070.33 to build and furnish and was 25,408 square feet with a student capacity of 315.

The first addition to McEowen came in 1999 with a library. Then, in 2002, classrooms were added to the building to bring the capacity to 500 students. With the passage of a bond issue in 2008, the school added a cafeteria, teacher workroom and special education areas. The most recent bond issue - in 2020 - led to a new playground and fencing, office and hallway renovations, and HVAC replacement.

The school's official name is D.W. McEowen Elementary School. It was named for long-time superintendent D.W. McEowen who served from 1938-1969 as superintendent and for 11 years prior

as high school principal.

On Saturday, October 21, the CCC FFA hosted a Fish Fry to celebrate the 75th anniversary. Guests at the event had the opportunity to look through old scrapbooks and view a documentary - History of FFA in Harrisonville - which premiered at the event.

The Agriculture Program was origi-

nally located at the old Harrisonville High School and included a separate Vocational Agriculture Building, which consisted of a classroom and shop. The original Vo-Ag Building housed Agriculture classes from 1949-1975. During this time, the FFA Chapter was referred to as the Harrisonville FFA Chapter.

Beginning in 1975, the Agriculture Program moved to the Cass County Vocational School, now called the Cass Career Center. Since moving to the Vocational School in 1975, the FFA Chapter changed its name to the Cass County Vo-Tech FFA for 19 years and then the Cass Career Center FFA for the past 29 years.

The first Vo-Ag Instructor & FFA Advisor was Mr. Bill Day, who served in that role from 1949-1967.

Two hundred, twenty Agriculture students have earned the State FFA Degree, given to only 3% of FFA members throughout the State. 78 have earned the prestigious American FFA Degree, which only 0.5% of FFA members in the US achieve.

Many students from the program went on to become leaders at the State level in FFA over the past 75 years: John Yohe (1954-1955), Dwight Roth (1960-1961), Michael Ellis (1974-1975), Ron Ellis (1977-1978), Roger Gardner (1979-1980), Tobi Todd (1984-1985), Doug Roth (1986-1987), and Aaron Nevils (1987-1988).

Two members have been named the top student with their Supervised Ag Experience projects over the past 75 years: Jay Fogle -

State Star Farmer in 1995 and George Frees - State Star in Agriscience in 2022.

A small number of students from the Ag Program have been able to compete at the National FFA Convention during the past 75 years: Michael Ellis, Pete Dahn, Daniel Turner, Jamie Bennett, Jarrett Craig, Jacob Erwin, Austin Moreland, Blake Moreland, Trevor Campbell, George Frees, Brandon Johnson, and Case Melzer.

14 Winter 2023/24 www.harrisonvilleschools.org

In the #WildcatFamily, older students impact learning, life for younger students

The term #WildcatFamily is used a lot to describe our district. One of the ways this phrase plays out in dayto-day life is through the interaction of our older students with our younger students. Students throughout the district are all Wildcats and with buildings located close together, students have the opportunity to interact regularly. These get-togethers

range from older students helping younger students with school work through the A+ program middle school students modeling social skills while playing games with kindergarten students to spreading

Wildcat spirit with the Homecoming candidate parade and High Five Fridays. The interaction between grade levels within our schools and within programs is a great example of what it means to be a part of the #WildcatFamily.

• Harrisonville High School students can earn reimbursement for tuition and general fees to attend any public community college, vocational, or technical school in the State of Missouri if they complete the requirements of the A+ program. The requirements include a minimum GPA, attendance, citizenship, and 50 hours of tutoring. Many juniors and seniors complete their tutoring at our elementary and middle schools by enrolling in A+ tutoring class for a semester as one of their courses.

• Harrisonville Middle School eighth

graders have the opportunity to participate in the HMS/ E C C Mentor

program.

• High Five Fridays are hosted by Bright Fut u r e s Harrisonville as a way to bring positive role models into

als in Harrisonville. Emma Schrock spent first quarter working with Ms. Risa Bullard in her reading classroom at HES and second quarter with Allyssa Clark at ECC; Jaeda Hasam is working with Mrs. Amy Wilson in her HES Life Skills classroom through the first semester.

• A Homecoming tradition in our school district is the Candidate Pa-

> rade. The high school Homecoming candidates travel through the district on Big Blue and walk the halls of each school. The candidates have the opportunity to see younger siblings and other family members, as well as past teachers and all our Wildcats get to celebrate Homecoming with the "prince and princesses."

the lives of elementary students. Many high school organizations and teams participate in High Five Fridays by passing out smiles, positive greetings, and high fives on Friday mornings before school.

The Cass Career Center's Teaching Profes-

sions program began last year and our schools and students are already benefiting. Of the 11 students who certified as paraprofessionals last spring, two Harrisonville seniors enrolled in Teaching Professions II and have been placed as paraprofession-

Clockwise from top: HMS 8th grader Christian Crook plays Candyland with kindergarten students Maylee Ingrassia and Kendall Griffin as part of the HMS/ ECC Mentor program. A+ tutor Ryley Wood, an HHS senior, works with second graders Lola Jones, Owen Smith, and Daelah Huff during Wildcat Time at Harrisonville Elementary School. Members of the Harrisonville High School boys' basketball team greet HES students as they come to school during a recent High Five Friday. The Homecoming Court walks the halls of HES during the annual Candidate Parade.

Twice a week, HMS students go to ECC to play games and interact with the kindergarten students for 30 minutes. The older students model skills like taking turns and playing fairly, along with helping students with counting and colors.
